Broker**

# ORGIL GREENHOUSES

## WHO WE ARE - COMPANY PROFILE

ORGIL is an international corporation based in the United States and is recognised as one of the worlds leading manufacturers and developers of complete greenhouse agricultural growing systems.

ORGIL's primary mission is to develop economically viable agricultural infrastructure projects that enhance the quantity and quality of agricultural production.

We use sustainable technology that emphasizes environment and food safety, particularly in developing nations where it is needed most.

# ORGIL GREENHOUSES – Agri-Industrial Park

The “Learning to Teach” project consists of three main components:

- (i) technological transfer;
- (ii) Infrastructure development;
- (iii) program coordination, management and education.
